**PRELIMINARY AMENDMENT**

Sir:

Applicants request that the following Amendments be made in the above-identified matter prior to examination thereof:

**IN THE SPECIFICATION:**

Before paragraph [0001], please change the heading "Field of the Invention" to  
--RELATED TECHNOLOGY--.

Please amend paragraph [0001] as follows:

[0001] The present invention relates to a circuit breaker having an interrupter chamber housing composed of plastic and an interrupter arranged in the interrupter chamber housing and having a busbar disposed inside an outside wall of the interrupter housing.

Before paragraph [0002], please delete the heading "Related Art".

Please amend paragraph [0002] as follows:

[0002] European Patent Document EP 0 560 696 B1 describes a circuit breaker featuring a rotary double-break interrupter, the interrupter chamber housing being composed of two housing modules. The interrupter includes two stationary contact members which are each connected to corresponding connecting terminals via loop-shaped busbars, and a two-arm contact member which is rotatable about an axis and which interconnects the two stationary contacts in its closed
